APPLICATION FOR WASTEWATER TAP PERMIT

NAME OF APPLICANT: _____

SIGNATURE OF APPLICANT: _____ DATE: _____

ADDRESS: _____

OWNER: _____

ADDRESS: _____

NAME OF CONTRACTOR: _____

LOCATION OF TAP: _____

LOT NUMBER & ADDITION: _____

TYPE OF WATER SUPPLY: City: _____ Well: _____

NEW TAP: _____ or RECONNECTION: _____

*****No Tap Connection will be approved without a Back Flow Device Installed*****

The applicant is responsible for providing and placing barricades and lights at all excavations to insure public safety. The applicant shall use granular material for backfill in all excavations within the improved surface and any public street or alley and repair surface according to the specifications of the City of Wabash.

The building's wastewater conduit shall be constructed and must conform to all City of Wabash's general and detailed specifications. A saddle shall be installed for a connection onto the main wastewater pipe of conduit unless a manufactured "Y" or "T" has been provided. The applicant shall be responsible for complying with all Federal, State and Local rules and regulations, but not limited to those contained in General Ordinance #3, 2001.

NO STORMWATER WILL BE PERMITTED IN THE WASTEWATER COLLECTION SYSTEM.

Please call the Wastewater Office at (260) 563-2941, between 8 a.m. and 4 p.m. for an inspection of the tap after the saddle is installed and before any pipes are connected to said saddle, if utilized. If not, call for an inspection after connection onto the City system and before covering said pipes. Please provide at least a 24-hour notice for inspection.

*****TAP FEE: \$420.00, payable to the City of Wabash BUILDING PERMIT # _____*****

This permit was issued on the _____ day of _____, 20____, and shall be void after 120 days.
